### **TurnKey Internet, Inc Launches Cloud Channel Partner Reseller Program**

LATHAM, NEW YORK (December 9<sup>th</sup>, 2016) – Leading Datacenter and Cloud Hosting Solutions provider TurnKey Internet, Inc. announced today the launch of its new Cloud Channel Partner Reseller program. The program will provide access to white label resale and distribution on all Cloud-Hosted products and Infrastructure as a Service (IaaS) offered by TurnKey Internet such as Colocation, Cloud Servers, Dedicated servers, Web Hosting, and Disaster Recovery Backup Services.

The Cloud Channel Partner Reseller program is designed to ensure that partners are rewarded for their efforts using a straightforward system which enables them to save up to 20% automatically on top of any online promotional offers when ordering private labeled products and services to distribute to their clients. They can then resell at any price individually or bundle it with other services under their own company name. Partners will also have exclusive access to reseller-only product bundles and custom server configurations.

To ensure success, a Partner Account Manager is assigned to each Reseller that will directly answer questions, create custom quotes and provide additional incentives on the right solutions to help each Reseller succeed.

“TurnKey Internet has a 15+ year story of growth that includes a great reputation for both reliability and customer satisfaction – we’re among the top Infrastructure as a Service (IaaS) hosting providers thanks to making every investment (datacenter, computer server, or staff member) have precise targeted goals on our commitment to always focus on the needs of our customers.” said Adam Wills, CEO of TurnKey Internet, Inc. He continued “With our new Cloud Channel Partner Reseller program, we consulted our existing Resellers to address what our partners are asking for – simplicity with comprehensive access to our entire cloud, colocation, web hosting, and server platform of services.”

For more information about TurnKey Internet’s Cloud Channel Partner Reseller program or to speak with a Cloud Hosting Solutions expert, visit <https://turnkeyinternet.net/resellers>

## About Turnkey Internet

Founded in 1999, TurnKey Internet, Inc. is a full-service Cloud Hosting Solutions provider with Datacenters in New York and California specializing in Infrastructure as a Service (IaaS) to clients in more than 150 countries. Services offered in both East Coast and West Coast, USA - include Public Cloud, Private Cloud, Dedicated & Bare Metal Servers, Backup & Disaster Recovery, Online Storage, Web Hosting, Managed Hosting, Hybrid Solutions and Enterprise Colocation. Headquartered in New York's Tech Valley Region, TurnKey Internet's Flagship company owned Datacenter offers SSAE 16 Type II certification powered exclusively by on-site Solar and Hydroelectric sources to provide a 100% renewable energy footprint. In 2013 the facility was designated as the 39th ENERGY STAR® Certified Datacenter in the United States.
